ABOUT INSTITUTE

"SPSPM was established under the able and dynamic leadership Prof. M. N. Navale with an objective of providing quality education in the field of engineering, Management, Computer and school education, Kindergarten onwards. All the institutes under the SPSPM are recognized by the concerned statutory authority and meticulously meets the norms and standards laid down by them. SPSPM has handpicked eminent personalities from the field of education and industry as members of the management committee who are committed to provide necessary guidance on academic and professional fronts from time to time.

To serve the interest of the student's community as well as the corporate and industrial sectors SPSPM maintains a close liaison with the industry and other leading organizations. There are experts from different fields contributing their valuable experience to build the institution as a place of learning and discipline. Entrusted by society to create a sustainable world and enhance the global quality of life, engineers serve competently, collaboratively and ethically."

ABOUT NCRICE- 2017

The aim of the NCRICE 2017 is to accumulate and exchange innovative ideas, latest knowledge and unique experiences for the benefits of researchers, industrialists, academicians and other participants. In the context of present development in the field of Civil Engineering it has become the need of the hour to update one's knowledge and adopt to the changing environment. In the era of globalization and privatization various issues in the field of civil engineering arises resulting in integration of systems functionalities and business operations. This international conference focuses upon Recent Innovations in Civil Engineering. The prime goal of the organizers is to provide a common platform for intelligentsia and potential researchers to share their views with learned audience. We do hope that active involvement of most prominent speakers and delegates and their innovative ideas will create an exciting atmosphere for Recent Innovations in Civil Engineering.
